

Help for Final Project- Psychology Get Started!!

4 gb flashdrive - cleaned off!!

THE PROGRAM DRAWS FROM ONE
SINGLE SOURCE WHICH IS YOUR
FLASH DRIVE. EVERYTHING -
PICTURES, MUSIC, VIDEO, TITLE
SLIDES, CAPTIONS - EVERYTHING
MUST BE ON YOUR FLASHDRIVE.
THERE IS NO OTHER WAY TO DO
THIS FINAL.

Start putting pictures together - you will need pictures from the time you were born up till NOW. There are parts of this project that your parents, grandparents, aunts and uncles, brothers and sisters, friends, may have to help you with. Get over it and ask.

All pictures must be scanned - They must be a .jpeg extension - you can't even start the project without

this. You can also scan report cards, art, or any other media form that fits on the scanner. All scanner pictures are stored on your flash drive so if you don't have it, you have wasted your time.

You need to put your pictures in THE CORRECT ORDER WHEN YOU SCAN OR YOU HAVE CREATED A GREAT DEAL MORE WORK FOR YOURSELF!!!!

You have to write the narrative to your story. Flip cams are great to get someone else to TELL the narrative of your story or for you to tell your own story.

PLEASE USE THE LIBRARY COMPUTERS ONLY FOR THIS PROJECT. We have allotted plenty of time for you to complete your final if you use class time wisely. OTHER COMPUTERS MAY HAVE A DIFFERENT VERSION OF MOVIE MAKER AND WILL CORRUPT YOUR FILES!

Remember, all the programs you are working with are FREE - you will have to wait - you will have to figure things out - don't waste your time without having a plan.

www.zamzar.com

www.you-tube-mp3.org

All of the above sites help you convert media to fit this program. Make sure when you convert, you check the correct format you want to convert to - photos - jpeg; music - mp3; Video (You tube) - WMV - it's the last one on the list.

SAVE EVERYTHING TO YOUR FLASH!! The number ONE issue for everyone on this project is that you do not save your movie to a flashdrive - If you go and JUST hit save, your movie is NO WHERE.

To finish the movie, you must publish the movie. The instructions for this are with this packet!!

Movie Maker Program

Yes, there are other programs, but this is what we are using. THIS IS THE ORDER FOR PUTTING INTO MOVIE MAKER - IF YOU CHANGE THIS ORDER; AGAIN, YOU ARE CREATING MORE WORK FOR YOURSELF.

1. Pictures in order/Title slides
2. Video including flipcam
3. Transitions
4. Captions on photo slides
5. LAST - MUSIC if you put your music in before, you will change the order of everything!

Flip cams - You **MUST** see Mrs Kois - we can show you how to put this into your movie.

Grading -

There will be **THREE** checkpoints for the project:

1.

2.

3.

Total of 30 points **OF THE FINAL**. You must have work done at the end of each checkpoint or you will lose points off the total for your project. This includes having pictures scanned, flipcam video, text and media clips. Having nothing done or added at each point will cause you to lose points. This is a way to keep you on track and for me to determine a fair and legitimate grade for everyone.

THIS COUNTS AS 20% OF YOUR FINAL GRADE - IT IS A STAND ALONE GRADE AS WELL. NO PROJECT WILL BE ACCEPTED LATE.
